

INSPIRING
THE DREAMS OF
HUNTERS AND
SHOOTERS FOR
70 YEARS

WEATHERBY®

2015

"IF IT HAS THE WEATHERBY® NAME, IT WILL HAVE THE QUALITY THAT HAS ALWAYS SET US APART."

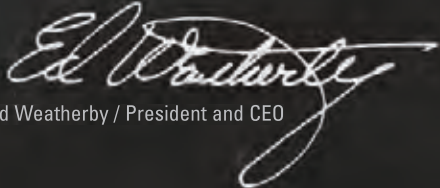

Looking back over the last 70 years of our history, from the day my father started in business in 1945 to today, I am reminded of what a visionary Roy Weatherby was. In the early years his slogan was "Tomorrow's Rifles Today", and they truly were tomorrow's rifles. Today as then: "Nothing Shoots Flatter, Hits Harder Or Is More Accurate™." He started and built this company on innovation, performance, and quality that are as important today as they were then.

Over the last 40 years that I have been involved with the company there have been a lot of additions to the Weatherby® lineup. From the many models of our time tested Mark V® and Vanguard® rifles, to the endurance tested and field proven line of Semi-Auto, Pump and Over/Under shotguns,

if it has the Weatherby® name, it will have the quality that has always set us apart. My father wouldn't have it any other way and neither will I.

I hope this 2015 catalog celebrating our 70th Anniversary inspires your dreams as it has inspired ours.

Good shooting and God bless.

Ed Weatherby / President and CEO

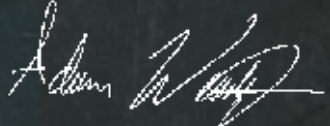

"FROM THE PLAINS OF AFRICA TO LOCAL RANCHES AND FARMS, WEATHERBY® HAS INSPIRED THE DREAMS OF HUNTERS AND SHOOTERS. IT IS FOR THIS REASON WE EXIST."

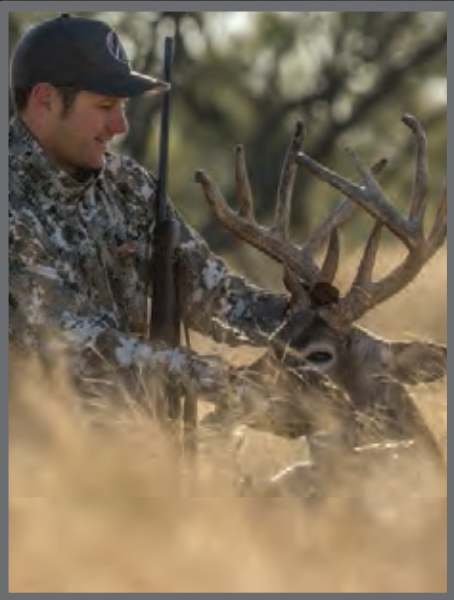

One of the things I have heard my whole life is, "I've always wanted to own a Weatherby®." Let's face it, there is something about a Weatherby® that just stands out. Whether it be the hard hitting, flat shooting rifles or the endurance tested, field proven shotguns, there is a reputation that comes with our name that has stood the test of time.

As we look toward the future, we hope that our 2015 product line up once again inspires the dreams of hunters and shooters. Whether it be the re-introduction of our proven Orion® over/under or our brand new Element™ inertia operated shotgun, we will continue to strive toward being "best in class" in whatever we offer. In addition to paying special attention to performance and reliability, we are determined to consistently introduce products that have a distinctively different look such as those in the WBY-X™ line which appeal to a wide variety of hunters and shooters.

However, the reason we hear "I've always wanted to own a Weatherby®" isn't just about the products themselves. It's about stories passed down through generations. It's about dream hunts that have been achieved. It's about shots that seemed to have never been possible. Most of all, it's about cherished memories that are in the minds of men and women around the world who hunt and shoot. Our brand has been a part of these memories. From the plains of Africa to local ranches and farms, Weatherby® has inspired the dreams of hunters and shooters. It is for this reason we exist. It is for this reason that I am proud to be a Weatherby.

Chase your dreams,

Adam Weatherby / Executive Vice President and COO

THE INSPIRATION STARTS HERE!

The Legacy of Weatherby®

Drawing on our past and Roy's vision of superior ballistic performance, Ed and Adam Weatherby continue to inspire the dreams of hunters and shooters around the world with the same innovation and pacesetting performance that has fueled this company for seven decades.

SPORTING RIFLES

ANXIOUS ANTICIPATION OF OPENING DAY.

Clear, crisp mornings warmed by the first glimmer of light. Bumps of adrenaline pulsing through your veins. These are the moments for which every Weatherby® sporting rifle was made.

From the original Mark V® to the Vanguard®, Weatherby has been inspiring—and been part of—the dreams of hunters and shooters around the world.

And, the best dreams never end. As we enter our 70th year, today's Weatherby® is better than ever. Better selection. Better performance. Better value for your hard-earned dollar.

Ed Weatherby with his daughter, Jessica Sander. Kessler Canyon, DeBeque, CO

Perhaps more than anything else you carry in the field, a shotgun truly becomes an extension of the person pulling the trigger. Hunter and gun in perfect balance, synchronization and fit. That's what we aim for with our growing line of sporting shotguns.

Whether you prefer the tried-and-true dependability of a pump, the smooth action of an autoloader, or the classic elegance of an Over/Under, there's a Weatherby® shotgun that will instantly become your favorite shooting companion in the field.

WHEN THE SEASON CALLS, WEATHERBY ANSWERS.

The Weatherby® SA-08™ Deluxe 28 gauge was awarded American Rifleman's prestigious Golden Bullseye Award for 2014 Shotgun of the Year (see page 47).

SPORTING SHOTGUNS

WBY-X™

RADICALLY DIFFERENT, YET UNDENIABLY THE SAME.

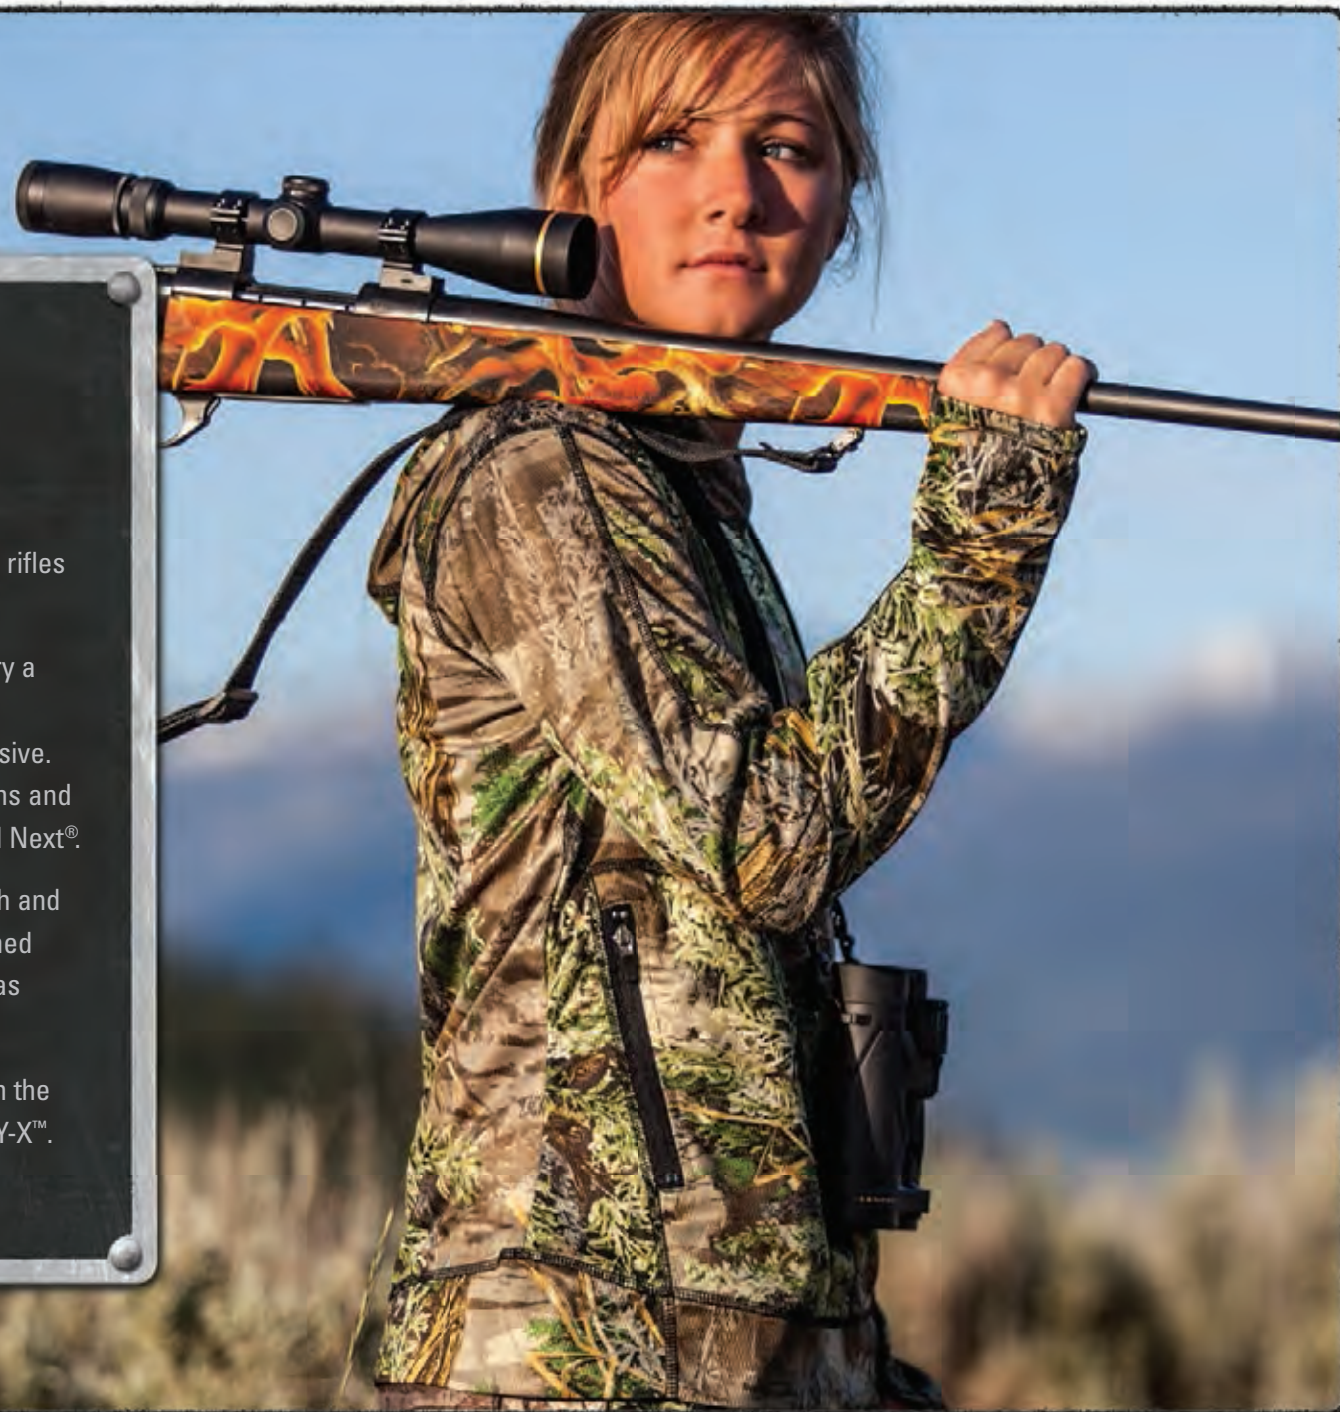

That's how we describe the WBY-X™ lineup of rifles and shotguns.

Different in that these distinctive firearms carry a look and feel not readily associated with a "traditional" Weatherby® Bolder. More aggressive. Sporting the most contemporary camo patterns and finishes from the likes of Kryptek®, Proveil® and Next®.

The same in that each is a Weatherby® through and through—with field proven features, unmatched performance and the rugged durability that has defined the Weatherby® name for 70 years.

For a rifle or shotgun that makes a statement in the field—as well as the gun rack—reach for WBY-X™.

WBY-X™ spokesperson, Karissa Pfantz, Hamilton, MT

There's no denying today's world can be a dangerous place. And we can't think of anything more important than the ability to protect our families and our homes. With that in mind, we offer our complete lineup of Threat Response® rifles and shotguns.

Weatherby® Threat Response® shotguns are armed with features built for fast target acquisition and close quarter use. Rifles are built to meet the long-range performance and precise accuracy demands required of today's threat response firearms.

***WE CALL IT "BUILT FOR PURPOSE."
YOU'LL CALL IT PEACE OF MIND.***

THREAT RESPONSE®

ENDURANCE TESTED. FIELD PROVEN.™

A shotgun worthy of your trust must weather round after round of hard-hitting punishment. In the field. In the duck blind or goose pit. Under the most adverse conditions. That's why we subject our shotguns to one of the most rigorous testing program in the industry. From the first time you shoulder your gun, you'll know it's worthy of the Weatherby® name.

To deliver unmatched performance in the field, we put our SA-08™ semi-auto shotgun and its unique dual valve system through 6,000 rounds of extensive testing. The SA-08™ offers smooth, dependable cycling of a wide variety of field and waterfowl loads from 2 3/4" to 3" magnums.

NOTHING SHOOTS FLATTER, HITS HARDER OR IS MORE ACCURATE.™

That slogan has been part of the Weatherby® promise for nearly two decades. More than words on paper, they represent the confidence and field-proven performance you need to squeeze off the shot that will result in a lifetime of memories.

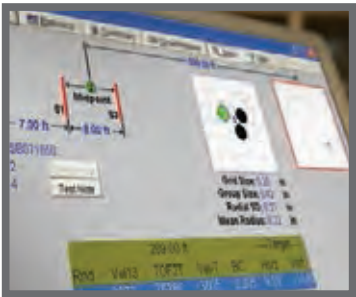

Compare the performance of a Weatherby® Mark V® or Vanguard® rifle and ammunition to any other combination. Compare speed. Compare knockdown power. Compare out-of-the-box accuracy. Head to head, you'll find that "Nothing Shoots Flatter, Hits Harder Or Is More Accurate.™"

*200 Yard Zero. Specification information is from competitor-published catalogs and websites as of date of publication.

WEATHERBY® RANGE CERTIFIED RIFLES.

Range Certified (RC) rifles are available in both Mark V® and Vanguard® models, certifying guaranteed SUB-MOA accuracy (3-shot group of .99" or less at 100 yards). Each RC rifle is performance-tested in our state-of-the-art indoor range and comes with a certified ballistic data sheet from our Oehler Research 83 Ballistic Imaging System (see at right). Weatherby® RC rifles take the meaning of "the most accurate production rifle you can buy" to a whole new level.

OEHLER RESEARCH 83 BALLISTIC IMAGING SYSTEM

Mark V® and Vanguard® rifles designated as "Range Certified" have passed rigorous testing for accuracy. Each rifle comes with a printed data sheet from our Oehler Ballistic Imaging System which includes specific load/ ballistic data and a computer image of the actual 3-shot group measuring .99" or less (SUB-MOA). The sheet is signed and certified by Ed or Adam Weatherby. Each rifle also features a specially engraved floorplate with the RC logo.

RANGE CERTIFIED ENGRAVED FLOORPLATE

Each Weatherby® RC rifle comes with a specially engraved Range Certified floorplate, signifying the SUB-MOA accuracy guarantee.*

*(3-shot group of .99" or less at 100 yards when used with Weatherby® factory or premium ammunition.)

MARK V®

THE WORLD'S STRONGEST ACTION

Gamechanger. That's how the Mark V® was viewed when introduced by Roy Weatherby in 1958. Today, it remains firmly positioned as "the world's strongest bolt action." From the heaviest magnum loads to the most popular standard chamberings, the Mark V® handles each with unequaled strength and structural integrity.

DIRECT STRIKER INTERVENTION SAFETY

Positively locks firing pin and bolt while rendering trigger inoperable. A smooth rolling action of thumb delivers controlled, safe release.

COCKING INDICATOR

An industry first! Visually indicates whether rifle is cocked or uncocked.

FULLY ENCLOSED BOLT SLEEVE

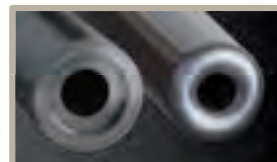

Completely enshrouds rear of action to redirect high-pressure gases and brass particles in the event of a case rupture or pierced primer.

THREE RINGS OF STEEL

The cartridge casehead is surrounded by the recessed bolt face, barrel, and forged and machined steel receiver. Provides an extra measure of strength and structural integrity.

INTEGRAL RECOIL LUG

One-piece forged and machined receiver features integral recoil lug for the utmost in strength and structural integrity.

FIELD OR TARGET CROWN

Mark V® barrels feature one of two muzzle crowns. Concentrically precise crowns protect the muzzle of the rifle and allow gases to escape uniformly, improving accuracy potential. The Mark V® Accumark® and Ultra Lightweight rifles feature a recessed target crown (left). The Mark V® Fibermark®, Deluxe, Sporter, Lazermark®, and Ultramark™ rifles feature a radius field crown (right).

→ FACTORY-TUNED, FULLY ADJUSTABLE TRIGGER

Allows for precise adjustment of sear engagement (factory set at .008 to .014) and let-off weight (factory set at approximately 3.5 pounds). You get a clean, crisp trigger that will break precisely—a key component in delivering extreme accuracy and ultimate shooter performance. (Additional sear engagement adjustments must be performed by Weatherby, Inc.)

→ MAGNUM 9-LUG OR STANDARD 6-LUG ACTION

The Mark V® is built to handle the pounding of powerful magnum loads. However, for those hunters who prefer non-magnum calibers, we offer the Mark V® standard 6-Lug action, accommodating up to .30-06 length cartridges including the .240 Wby. Mag. Utilizing the same one-piece forged receiver design, our standard 6-Lug action is dimensionally smaller and weighs 28% less than its magnum 9-Lug counterpart providing lighter overall weight without sacrificing an ounce of strength or structural integrity.

MADE IN USA

Our Mark V® rifles are proudly made in our Paso Robles, California facility. Our skilled craftsmen provide the exceptional quality and attention to detail you expect from such a legendary name.

54-DEGREE BOLT LIFT

The shortest in the industry (as compared to typical 90° bolt throw). Allows faster chambering on follow-up shots and greater bolt-to-scope clearance to eliminate battered knuckles.

→ FLUTED BOLT BODY

Features three gas ports to allow high-pressure gases to escape laterally in the event of an accidental case rupture. Longitudinal flutes reduce weight and bearing surface area while eliminating binding for smooth action.

MARK V® 70TH ANNIVERSARY

NEW FOR 2015 **MARK V®**
70TH ANNIVERSARY
MSRP \$5,900

AVAILABLE CALIBERS	
.257 Wby Mag.	M70257WR40

- ▶ Limited edition — only 70 rifles will be produced
- ▶ Each rifle will carry a unique serial number created for this limited edition series
- ▶ Exhibition grade California claro walnut stock with high gloss finish features double forend tip and grip cap spacers in ebony and maple hardwoods
- ▶ Pachmayr® waffle-style recoil pad
- ▶ 24" #1 contour barrel
- ▶ High gloss finish on all metalwork
- ▶ Comes with commemorative knife and sheath, handcrafted by Dan Weatherby
- ▶ Bottom metal features 70th Anniversary logo in gold
- ▶ Comes with custom leather case

Firestone Boulevard in South Gate, California served as the early home to Roy's plant and retail store.

To commemorate our 70th Anniversary, we are offering an extremely limited edition Mark V® rifle. This unique collector's item will be as special as it is rare. Only seventy rifles will be produced, each with its own unique serial number and custom leather rifle case. Each rifle will also come with a commemorative knife, handcrafted by Ed's son Dan Weatherby (see right). Don't miss your chance to own a truly unique piece of Weatherby® history.

**HANDCRAFTED
COMMEMORATIVE KNIFE**
Each 70th Anniversary rifle comes with a special 70th Anniversary knife handcrafted by third generation Dan Weatherby. The handle of the knife is made of reclaimed Mark V® stocks in exhibition grade walnut, maplewood and rosewood, and finished with nickel silver bolsters and pins. The mirror polished knife blade is flat ground from 440C stainless steel with a Rockwell hardness factor of 58-59.

ENGRAVED FLOORPLATE
The floorplate of the Mark V® 70th Anniversary rifle will feature the 70th Anniversary logo etched in gold.

WE OFTEN HEAR OUR CUSTOMERS SAY, “I’VE ALWAYS WANTED A WEATHERBY.®”

WEATHERBY® ACCUBRAKE™

All Weatherby® rifles are available with our Accubrake™ option (standard on .30-378, .338 Lapua, .338-378, .378, .416 and .460 models). By adding an Accubrake™ you will significantly reduce felt recoil...up to 53 percent. That’s nearly 10 percent more effective than our nearest competitor. Available for four different barrel diameters, with checkered thread protector, for a near perfect brake-to-barrel contour match. Because the crown is at the end of the barrel and not the brake, the lands are protected. Our Accubrakes are designed so that the bullet passes through the brake without contact, maintaining accuracy and velocity while reducing felt recoil and muzzle jump. Constructed of heat-treated steel alloy or 416 Series stainless steel and available in high polish or matte blue finish or matte stainless steel.

For maximum performance and safety, an Accubrake™ should only be installed by Weatherby, Inc.

Imagine upping the ante and designing a Weatherby® rifle that is uniquely your very own. Our Custom Shop can make it happen. Upgrade your stock. Add engraving, gold fill or laser etching. Personalize your bolt or floorplate. Fine tune your trigger or add a custom cut-rifled, match grade barrel. From pre-packaged custom rifles to a full complement of “Can you do this?” embellishments and options, the choices are many and they are all yours. For more information on Weatherby Custom Shop options, go to www.weatherby.com or call us at 800-227-2016.

CUSTOM STOCKS

Customize your Weatherby® rifle with a raised comb, Monte Carlo synthetic stock (aramid, graphite unidirectional fibers and fiberglass) in a variety of color/pattern options. Contact the Weatherby® Custom Shop.

ENGRAVING

Our Custom Shop offers a variety of engraving options, including this Grade 3 gold border Italian nickel Victorian floral inlay.

MARK V® TRR RC (RANGE CERTIFIED)

THESE MARK V® THREAT RESPONSE® RIFLES feature a hand-tuned, fully adjustable trigger†, hand-laminated stock with CNC 6061 T-6 aluminum bedding system, 3-position buttstock—adjustable for LOP, drop at heel and cant of the pad, #6 stock slide for bipod attachment, recessed target crown, and swivel studs.

MUZZLE BRAKE

Constructed of AI51 1020 stress-proof steel, the muzzle brake features high discharge ports with 90° lateral gas dispersion to eliminate dust blow-up. Reduces felt recoil up to 48 percent.

BOLT KNOB

The D.D. Ross-designed tactical-style bolt knob provides additional length and weight to improve grasp and cycling. Matte finish blued steel for added durability.

INTEGRATED FOREARM ACCESSORY RAIL

The Mark V® TRR RC features an integrated forearm accessory rail. The channel-style rail allows for securing a bipod, handrest or other accessory to your rifle. (Shown with Harris Bipod, not included.)

VANGUARD®

EXCEPTIONAL PERFORMANCE IS STANDARD.

How do you build a rifle that stands out from the crowd? Start with guaranteed SUB-MOA accuracy. Add in a match quality, two-stage trigger that breaks crisp and clean. Offer magnum and standard calibers in a choice of traditional wood, composite or exciting WBY-X™ camo stock designs. And do it all for less than you'd ever expect. That's the Weatherby® Vanguard® ...the best rifle value on the market today.

FULLY ENCLOSED BOLT SLEEVE

Redirects high-pressure gases and brass particles in the event of a case rupture or pierced primer. Shorter bolt sleeve helps to reduce overall weight.

FLUTED BOLT BODY

Three gas ports allow high-pressure gases to escape laterally in the event of an accidental case rupture. Longitudinal flutes reduce weight and bearing surface area, while eliminating binding for smooth action.

3-POSITION SAFETY

Middle position allows shooter to safely load and unload rifle.

THREE RINGS OF STEEL

The cartridge casehead is surrounded by the recessed bolt face, which is surrounded by the barrel, which is surrounded by the machined steel receiver. Provides an extra measure of strength and structural integrity.

HINGED FLOORPLATE

One-piece trigger guard with hinged floorplate provides easy access to unfired cartridges in the magazine.

VANGUARD® RECOIL PAD

All Vanguard® rifles feature a specially-fit, low density recoil pad. This technologically superior material significantly reduces felt recoil.

INTEGRAL RECOIL LUG

One-piece machined receiver features integral recoil lug for the utmost in strength and structural integrity.

GUARANTEED SUB-MOA ACCURACY

All Weatherby® Vanguard® rifles are guaranteed to shoot a 3-shot group of .99" or less at 100 yards (SUB-MOA) when used with Weatherby® factory or premium ammunition.

See Weatherby® products in action at WBY-TV.com

→ COLD HAMMER FORGED BARREL

Maximizes velocity and produces SUB-MOA Guaranteed Accuracy when used with premium (non-Weatherby® calibers) or Weatherby® factory ammunition. 20", 22" and 24" barrels available.

→ MONTE CARLO GRIPTONITE® STOCK WITH INSERTS

Provides lightweight and durable performance year after year. Combines modern synthetic materials with the legendary Weatherby® raised comb Monte Carlo design. Our special pistol and forend inserts provide a firm, non-slip grip, while a right side palm swell aids in control and shooter comfort (available on select Vanguard® rifles).

Upgrade your pre-2011 Vanguard® rifle with a new Monte Carlo Griptonite® composite stock and drop in two-stage trigger.

ONE NATION VINTAGE

This patriotic pattern provides an exciting twist to the stars and stripes.

KRYPTEK®
HIGHLANDER® REDUCED

Designed for varied geographical regions and elevations, Kryptek® Highlander® Reduced increases stealth when hunting a variety of terrains.

WHITETAIL BONZ™

Defies convention with a unique and intricate pattern design made up of weathered deer skulls and racks intermingled with twigs and brown leaves.

All WBY-X™ rifles and shotguns come with a removable white vinyl decal.

Taya Kyle, wife of the late American Sniper and Navy Seal, Chris Kyle, on a pronghorn hunt in Wyoming, hosted by Weatherby and Leupold. See more about the hunt at WBY-TV.com

VOLT™

Our new Volt™ pattern provides an electric combination of black synthetic with bright green spiderweb accents.

BONEYARD CAMO™

LEGENDS BLAZE™

This killer hot pattern brings a bold and fiery look to your rifle. Combines high-resolution red/orange flame graphics with deer antlers and skulls.

GH2 (GIRLS HUNT 2)™

Girl power meets Weatherby® power with a pink and black spiderweb pattern that gives the ladies their own unique look.

All WBY-X™ rifles and shotguns come with a removable white vinyl decal.
Only Range Certified (RC) models come with Oehler data sheet.

AMMUNITION

Ultra-high velocity, magnum ammunition is how Roy Weatherby got started in the 1940s. As a young wildcatter, he revolutionized the industry with his fast, hard-hitting loads that were dead-on accurate. Today, those same performance qualities are every bit a part of Weatherby® cartridges. When combined with a Weatherby® rifle, Nothing Shoots Flatter, Hits Harder Or Is More Accurate™.

Weatherby, Inc. founder Roy Weatherby often demonstrated the power of his magnum cartridges. Here he shows the results of shooting through "bulletproof" glass and examines the results of another dramatic test.

BULLETS

Weatherby® ammunition offers a variety of bullets that are carefully selected for specific hunting applications. To meet varying needs, we proudly load the renowned Barnes TTSX™, TSX®, the popular Nosler® Partition®, Nosler Ballistic Tip®, Nosler Accubond® and Hornady® Interlock® in Weatherby® Select Plus™ ammunition. Weatherby® Select™ ammunition is loaded with Norma® Spitzer.

DOUBLE RADIUS VENTURI SHOULDER

Unique design increases the velocity of escaping gases without increasing the pressure within the cartridge. This results in higher velocity within standard pressure ranges.

BRASS

We use Norma® Precision Brass, offering CNC-machined primer pockets produced to match-grade specifications...the finest that money can buy.

POWDER

Norma® High-Grade Premium Powder is used in all Weatherby® Ammunition to deliver maximum attainable velocity and energy. Each lot of powder is tested to assure consistency and to achieve the lowest standard velocity deviation from shot to shot, maximizing accuracy. Gives the non-handloader the performance of handloaded ammunition.

SPECIALLY-DESIGNED PRIMERS provide positive ignition of the large powder charges found within Weatherby® Magnum ammunition.

NOTHING
SHOTS FLATTER
HITS HARDER
OR IS MORE
ACCURATE™

WEATHERBY® SELECT™

HARD-HITTING PERFORMANCE AND UNMATCHED VALUE.

Our Select™ ammunition gives you the flat shooting, hard-hitting, and incredibly accurate performance of the Norma® Spitzer bullet for just \$43 a box. Choose Weatherby® Select™ in four of our most popular chamberings — .240 Wby. Mag., .257 Wby. Mag., .270 Wby. Mag., and .300 Wby. Mag.

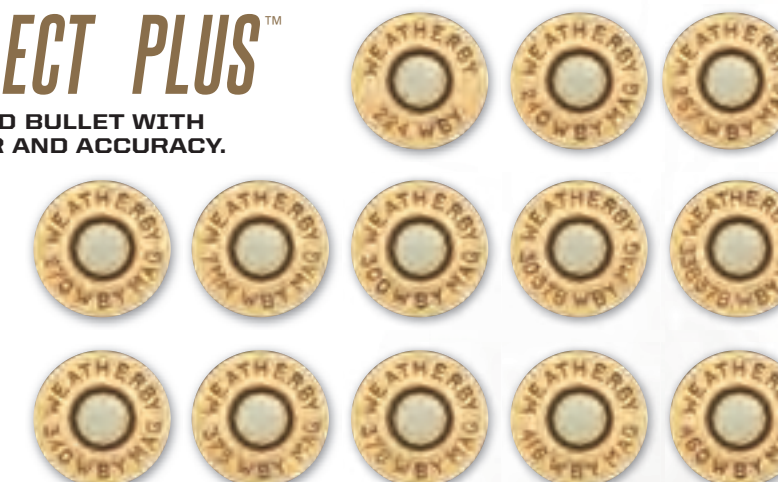

Justin Moore, Weatherby's Director of Marketing, with a Dall Sheep ram he killed using Weatherby® Select™ Ammunition.

WEATHERBY® SELECT PLUS™

MATCH YOUR FAVORITE BRANDED BULLET WITH THE ULTIMATE IN SPEED, POWER AND ACCURACY.

Weatherby® Select Plus™ ammunition is the fastest shooting, hardest hitting, most accurate ammunition you can buy. It pairs our magnum design with the most popular bullet offerings from Barnes®, Hornady® and Nosler®. With Select Plus™, there's a bullet option to meet every hunting or shooting situation. Available in all Weatherby Magnum chamberings from .224 Wby. Mag. thru .460 Wby. Mag. With a Weatherby® Mark V® or Vanguard® rifle, you'll have an unbeatable combination for tack-driving knockdown power that's always dead on the money.

TTSX™ – Barnes’ TTSX takes the proven performance of their Triple-Shock X bullet design and adds a streamlined polymer tip. The result is a blistering fast projectile that pushes velocity to a whole new level. 100% copper body with multiple rings delivers pinpoint accuracy and “dead right there” performance. Polymer tip with re-engineered nose cavity boosts the ballistic coefficient, improves long-range ballistics and provides even faster expansion. | www.barnesbullets.com

99-100% WEIGHT RETENTION

AVAILABLE BULLET WEIGHTS*	
Wby. Caliber	.257
Weight (Grains)	80
Muzzle Velocity	3870

TSX® – Upon its introduction, the Barnes X bullet was generally regarded as a quantum leap in bullet design, retaining virtually all of its weight upon impact and delivering superior terminal performance in a lighter weight bullet. The 100% copper construction TSX takes the X to the next level with a specially-designed nose cavity that opens instantly into four razor sharp petals on impact. | www.barnesbullets.com

INTERLOCK® SPIRE POINT™– A tried and true hunting bullet, the InterLock promises more mass, energy and momentum at impact for greater penetration. Secant ogive design offers a high ballistic coefficient with maximum bearing surface for greater stability. A raised InterLock ring ensures the core and jacket remain locked during expansion. | www.hornady.com

Ammunition Suggested Usage: V-Varmint M-Medium Game (Deer, Sheep, Pronghorn, Black Bear) B-Big Game (Elk, Moose, Grizzly) A-African Big Game (Elephant, Cape Buffalo, Rhino, Lion)

*Above or below line-of-sight of rifle scopes mounted 1.5" above bore.

NOTE: These tables were calculated by computer using a standard modern scientific technique to predict trajectories and recoil energies from the best available data for each cartridge. The figures shown are expected to be reasonably accurate of ammunition behavior under standard conditions. However, the shooter is cautioned that performance will vary because of variations in rifles, ammunition, atmospheric conditions and altitude.

► B/C: Ballistic Coefficients used for these tables were supplied by the bullet's manufacturer. Listed velocities were determined using 26-inch barrels. Velocities from shorter barrels will be reduced by 30 to 65 feet per second per inch of barrel removed.

► Trajectories were computed with the line-of-sight 1.5 inches above the bore centerline.

► Accubond®, Ballistic Tip® and Partition® are registered trademarks of Nosler, Inc.

► Barnes TSX® is a registered trademark of Barnes Bullets, LLC. Barnes™ and TTSX™ are trademarks of Barnes Bullets, LLC.

► Hornady® and Interlock® are registered trademarks of Hornady Manufacturing Company.

ORION®

OVER/UNDER SHOTGUNS—NEW FOR 2015

From upland birds, to waterfowl, to fast-moving clays our new Orion® Over/Under handles them all with exceptional double gun performance. Traditional boxlock design. Forged steel receiver. Rich Grade “A” walnut stock. A rock solid, beautiful shotgun that delivers that exceptional balance and effortless swing thru. From the moment you pick it up you’ll know you have something special in your hands.

AMBIDEXTROUS TOP TANG SAFETY

Safety also serves as barrel selector, allowing shooter to quickly choose which barrel shoots first. Easy to use, even with gloved hands.

CHROME-LINED BORES

Chamber and bore are chrome-lined for easier cleaning and greater corrosion resistance.

MATTE VENTILATED TOP RIB WITH BRASS BEAD FRONT SIGHT

Ventilated top rib provides better sighting plane and dissipates heat waves quicker. Threaded brass bead front sight for faster target acquisition and a traditional look.

AUTOMATIC EJECTORS

Ejects spent shells to allow for faster reloading.

LOW PROFILE RECEIVER

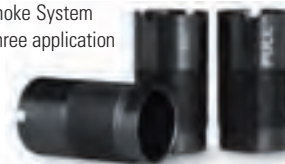

Constructed of forged steel, the receiver is shallower in depth and thinner in profile than traditional 12 gauge designs. Provides exceptional balance and reduced weight.

PRINCE OF WALES GRIP

Rounded Prince of Wales grip with 22 LPI checkering provides for a comfortable, sure grip in the field.

INTEGRAL MULTI-CHOKE SYSTEM

All Orion® shotguns feature our Integral Multi-Choke System and come with three application specific tubes (Full/Mod/IC).

TRADITIONAL BOXLOCK ACTION

Features dual conical pin locking mechanism for the ultimate in structural integrity.

ORION® I

MSRP \$1,099

12 GAUGE		
26" Barrel	OR11226RGG	
28" Barrel	OR11228RGG	

- 12 gauge with 3" chamber
- Weighs just 7 pounds

SUPERIOR FIT AND FINISH

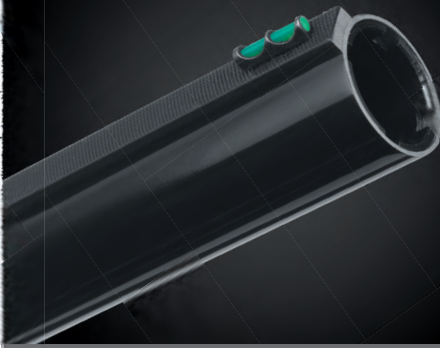

The Orion® I features a Grade “A” walnut stock with Prince of Wales grip and 22 LPI checkering. A Pachmayr® Decelerator® pad with “speed mount heel” won’t catch when shouldering the gun and reduces felt recoil. High gloss finish and exceptional wood-to-metal fit.

ELEMENT™

INERTIA OPERATED SEMI-AUTO SHOTGUNS - NEW FOR 2015

Our new Element™ semi-auto shotgun brings together the signature fit and finish of a Weatherby®, with our new “inertia-operated” action. The result is performance that is clean, smooth and ready for round after round of high volume shooting.

FIBER OPTIC BEAD
Fiber optic green bead aids in faster target acquisition.

INTEGRAL MULTI-CHOKE SYSTEM
All Element™ shotguns feature our Integral Multi-Choke system and come with three application specific tubes (Full/Mod/IC). 28 gauge models feature Beretta Mobil pattern choke tubes.

DROP-OUT TRIGGER SYSTEM
Adds to the exceptional functionality of the Element™. Can be quickly removed for easy cleaning.

DUAL PURPOSE BOLT RELEASE
A push of the button releases the bolt forward and also allows shells to be removed from the magazine without ejecting the round in the chamber.*

AA GRADE AMERICAN WALNUT STOCK
Our partnership with Minelli of Italy produced a unique and beautifully designed stock that showcases the best of American and Italian ingenuity.

AIRCRAFT GRADE ALUMINUM
Receiver is crafted from aircraft grade aluminum alloy for exceptional strength while reducing weight. All metalwork is gloss finished with gold-etched Weatherby® logo on sideplate of receiver.

CHROME-PLATED BOLT
Bolt head and carrier are hard chrome-plated for increased durability and corrosion resistance, while reducing friction. Bolt handle is checkered for a sure grip in the field.

CHROME-LINED BARRELS
Chamber and bore are chrome-lined for easier cleaning and greater corrosion resistance.

VENTILATED TOP RIB
Provides better sighting plane and dissipates heat waves faster.

INERTIA-OPERATED ACTION
Directs carbon and gas out the barrel for clean, reliable performance.

SUPERIOR FIT AND FINISH
The superior fit and finish includes 22LPI wrap around checkering on the American walnut forend.

SA-08™

GAS OPERATED SEMI-AUTO SHOTGUNS

Smooth. Reliable. Easy on the shoulder. Those are three characteristics most often used to describe our SA-08™ semi-auto. The dual valve system lets you tailor your load from upland loads to 3" magnums. In the hands, the SA-08™ is trim, balanced and a pleasure to carry, tipping the scales at just 5½ - 6½ lbs.

UNIQUE DROP-OUT TRIGGER SYSTEM

Adds to the exceptional functionality of the SA-08™. Can be quickly removed for easy cleaning.

CHROME-PLATED BOLT

The SA-08™ bolt is chrome-plated for smooth, non-binding action and years of dependable use.

CHROME-LINED BARRELS

Withstands the wear and tear of high-volume shooting. Lengthened forcing cones work to reduce felt recoil, curbing shooter fatigue while improving patterns.

★ ★ TEAM WEATHERBY™

Team Weatherby™ is a diverse group of respected professionals brought together by a common bond—a passion for hunting, shooting and the great outdoors.

The diversity of their professions allows them to reach and positively influence broad and uniquely different demographics. They are true ambassadors for the outdoor lifestyle we all love. Their status as public figures provides great awareness of ethical hunting, shooting, wildlife conservation and our constitutional right to bear arms.

We are incredibly proud they have chosen to represent Weatherby® and have become valued members of our family. Each of their roads to success began with a dream. We are inspired just knowing their dreams came true and hope you are too.

Be inspired - chase your dream!

Team Weatherby™ includes (left to right):

Brendon Clark	15-Year Professional Bull Rider (retired)
Chad Mendes	Top-Ranked MMA Featherweight Contender
Darryl Worley	Country Music Singer/Songwriter
Ed Weatherby	President and CEO
Bear Pascoe	World Champion Professional Football Player
Jessie Duff	World Champion Shooter
Luke Branquinho	5-Time PRCA World Champion Steer Wrestler
Willie Bloomquist	Professional Baseball Player

UPGRADE YOUR VANGUARD®

VANGUARD® GRIPTONITE® STOCK

Synthetic stock with raised comb Monte Carlo design and right side palm swell. Features special pistol grip and forend inserts for firm, nonslip grip. Available for magnum and standard action rifles. | \$139

VANGUARD® LIGHTWEIGHT MOUNTS

Specially-designed lightweight Vanguard® mounts by Talley featuring a unique one-piece design of 7000 Series billet alloy, are available for Weatherby® rifles in matte blue or silver.

Rings: Matte 1" | Rings: Silver 1" | Rings: Matte 30mm

TALLEY-DESIGNED MOUNTING SYSTEM

CNC-machined rings and bases in aircraft-grade aluminum or cold rolled steel. Available in fixed or quick detach models (levers sold separately), magnum or standard action.

Base: magnum or standard | Rings: 1" or 30mm (low, medium or high)

VANGUARD® TRIGGER

Match quality, two-stage trigger is "creep free" for consistent let-off. Each trigger is hand-honed, factory-tuned and inspected for a clean, crisp break, improving shooter accuracy. Adjustable down to 2.5 lbs. Trigger housing is constructed of lightweight alloy.

WEATHERBY FOUNDATION INTERNATIONAL

Weatherby Foundation International's mission is to educate youth and the non-hunting public on the beneficial role of ethical sport hunting and its contributions to wildlife conservation. The Foundation also sponsors the Weatherby Hunting and Conservation Award. First presented in 1956, the Weatherby Award annually recognizes an individual for outstanding support of wildlife conservation, lifetime hunting achievement, and dedication to the principles of ethical sport hunting. For more information on this non-profit, tax-exempt foundation, visit www.weatherbyfoundation.com.

Weatherby supports or is a member of organizations dedicated to the conservation and management of our wildlife and habitat resources. We are proud to aid the following organizations in their critical missions:

BOONE & CROCKET CLUB – www.boone-crocket.org

CALIFORNIA WATERFOWL ASSOCIATION – www.calwaterfowl.org

CALIFORNIA DEER ASSOCIATION – www.caldeer.org

DELTA WATERFOWL – www.deltawaterfowl.org

DUCKS UNLIMITED – www.ducks.org

DUCKS UNLIMITED CANADA – www.ducks.ca

HUNTING HERITAGE TRUST – www.huntingheritagetrust.org

INTERNATIONAL HUNTER EDUCATION ASSOCIATION – www.ihea.com

MULE DEER FOUNDATION – www.muledeer.org

NATIONAL RIFLE ASSOCIATION – www.nra.org

NATIONAL RIFLE ASSOCIATION/INSTITUTE FOR LEGISLATIVE ACTION – www.nraila.org

NATIONAL WILD TURKEY FEDERATION – www.nwtf.org

PHEASANTS FOREVER – www.pheasantsforever.org

QUAIL FOREVER – www.quailforever.org

QUALITY DEER MANAGEMENT ASSOCIATION – www.qdma.com

ROCKY MOUNTAIN ELK FOUNDATION – www.rmef.org

SAFARI CLUB INTERNATIONAL – www.safariclub.org

WHITETAILS UNLIMITED – www.whitetailsunlimited.com

THE WEATHERBY COLLECTORS ASSOCIATION

was formed with the purpose of "creating an association where many Weatherby® admirers could pool their knowledge and experience for the benefit of all..." Members receive a newsletter with buy-sell-swap opportunities and bid opportunities on limited-edition, commemorative firearms. For information, write P.O. 1217, Washington, MO 63090 (636) 239-0348; email: wcacsecretary@aol.com.

LEARN THE HISTORY and lineage of your Weatherby® firearm, researched and authenticated through our company records. Each certificate is personally signed by Roy E. Weatherby, Jr. and Dean Rumbaugh, Company Historian. \$50 per serial number, (\$75 for Custom Rifles, \$100 for Special Edition or Commemorative rifles). Write to Company Historian, 1605 Commerce Way, Paso Robles, CA 93446 or visit www.weatherby.com

THE NATIONAL HIGH SCHOOL RODEO ASSOCIATION

is an international, non-profit organization dedicated to the development of sportsmanship, horsemanship and character in the youth of our country through the sport of rodeo. Weatherby is proud to sponsor the NHSRA and has helped generate more than \$1,500,000 in funds to support scholarships and leadership development programs. www.nhsra.com
